

redo — Gamified Self-Improvement System

Overview

redo is a gamified RPG-style self-improvement system that transforms personal development into a quest-based progression journey. Users select goals, complete AI-generated quests, earn XP, level up stats, and gain (or lose) status effects based on performance.

This README covers:

- MVP flow
- Stats table
- Goal questionnaires
- XP and status effect rules

MVP Flow

Flow:

1. User joins redo.
2. Enters basic details: name, email, password.
3. Selects at least 3 out of 10 predefined goals and orders them by priority.
4. Answers global and goal-specific questionnaires.
5. AI generates initial quests, assigns stats, XP values, and statuses.
6. User views the **Character Sheet** showing stats and goal progress.
7. Completing tasks earns XP, which increases stat levels and unlocks harder quests.
8. Missing tasks applies penalties and negative statuses.
9. User can add/edit/delete quests.

Stats

Stat	Description	Covers
Vitality 	Physical strength and wellness	Workouts, walking, diet, sleep, hygiene
Intelligence 	Mental skills, learning, and wisdom	Studies, skill-building, reading, economics
Fortitude 	Emotional resilience and discipline	Meditation, streaks, impulse control
Charisma 	Social skills and confidence	Relationships, socializing, emotional expression

Stat	Description	Covers
Creativity 🎨	Artistic and imaginative output	Guitar, design, writing, creating
Luck 🍀	Game-driven randomness	Surprise quests, RNG drops, hidden stat bonuses

Goals & Questionnaires

1. Weight Loss / Fitness

- Current weight/height
- Ideal body target
- Diet restrictions
- Current activity level
- Weekly commitment
- Injuries/medical conditions

2. Mental Health / Stress Management

- Current stress level (1-10)
- Current coping methods
- Time willing to commit daily
- Meditation/relaxation experience
- Known stress triggers

3. Discipline Building

- Main areas lacking discipline
- Biggest daily distractions
- Preferred habit-building approach
- Time availability

4. Career / Job Switching

- Current role and industry
- Target industry/role
- Skills to learn or improve
- Networking comfort level
- Time available for job search

5. Income Growth / Side Hustle

- Current income sources
- Monthly income target
- Skills/services for monetization
- Time commitment possible weekly

6. Creative Growth

- Main creative outlet
- Hours per week currently dedicated
- Tools/materials already owned
- Public sharing comfort level

7. Relationship Building

- Relationship focus (friends, partner, family)
- Comfort level in social settings
- Time willing to invest weekly
- Preferred activity types

8. Learning (Tech, Language, Exams)

- Topic/subject to learn
- Current proficiency
- Target proficiency level
- Learning style preference
- Hours per week commitment

9. Home / Life Organization

- Current home/organization challenges
- Priority areas for improvement
- Budget for improvements
- Time availability

10. Personal Projects

- Type of project
- Current progress status
- Deadline or desired completion date
- Skills required
- Weekly hours available

XP & Status Rules

XP Assignment

- **Base XP by Difficulty:**

- Easy: 20 XP
- Medium: 50 XP
- Hard: 100 XP

- Legendary: 200 XP

- **Stat Tagging:** Quests can have 1–3 linked stats. XP is divided equally between them.

Example:

Quest: "Guitar practice + Share online" Base XP: 100 Tags: Creativity, Charisma → 50 XP each

Level Progression

XP required for the next level:

$$\text{XP_needed}(\text{level}) = 100 * \text{level}^{1.5}$$

Examples:

- Level 1: 100 XP
- Level 2: 141 XP
- Level 3: 245 XP
- Level 10: 3162 XP

Leveling up:

- Unlocks harder quests
- Grants passive XP bonuses for related stats

Global Character Level

$$\text{Character Level} = \text{floor}(\text{totalXP} / 500)$$

Determines global unlocks and quest scaling.

Status Effects

Positive Statuses

Status	Effect	Duration
Momentum	+20% XP from all quests	3 days
Flow State	+50% XP for one stat	1 day

Status	Effect	Duration
Luck Surge	+1 random bonus quest daily	1 day

Negative Statuses

Status	Effect	Duration
Slump	-30% XP from all quests	3 days
Injury	Disables Vitality quests	Variable
Burnout	-50% XP from mental stats	2 days

Penalties

- Missed quest: Lose 50% of that quest's XP from tagged stats
- Missed streak day: Lose streak bonus + -10% XP next day
- 3+ failed quests in a week: Apply **Slump**

Bonuses

- **Daily Streak:** +5% XP/day, max +50%
- **Stat Combo:** 3+ quests for the same stat/day → +20% XP for that stat next day
- **Variety Bonus:** At least 1 quest for each stat/week → +500 global XP

Goal Progression

- Progress = Average level % of linked stats
- Milestones at 25%, 50%, 75%, 100%:
- Rewards: badges, lootboxes, AI-generated cutscenes
- Unlocks sub-goals
